

## Marshmallow lollipops

This activity is a fun one to try at home with younger children! After making the lollipops you might like to try and sequence the instructions with your child. You could cut up the instructions and ask your child to help you sort them into the correct order.

1) You will need marshmallows, chocolate and sprinkles.

2) You will also need lollipop sticks.

3) First melt the chocolate in a bowl in the microwave.

4) Then stick a lollipop stick into a marshmallow to make a pop.

5) To decorate the pop, dip the marshmallow into the melted chocolate.

6) Then dip the chocolate marshmallow pop into the sprinkles.
